## Attachments for Areapak 1 & 2

Louvre attachment

Wire guard

Spill Shield

## Materials/Finish

Body and front frame: die-cast aluminium LM6, painted black RAL9005.

Reflectors: dimpled anodized aluminium with specular side reflector.

Lens: tempered 4mm flat glass with stainless steel bolts and silicone rubber gasket.

Stirrup: 4mm mild steel, powder coated black, RAL 9005.

## Installation/Mounting

Single gland cable entry suitable for Ø9-13mm OD cable with 3 pole terminal block for up to 4mm cables.

Areapak 1 has a stirrup fixed by a single bolt through a 16mm diameter hole. Two additional 11mm diameter fixing holes at 102mm centres. Areapak 2 has a stirrup fixed through a 21mm diameter hole. Two additional 13mm diameter fixing holes at 250mm centres. The Areapak 1 and 2 floodlight are aided by goniometer.

## Specification

Enclosed floodlight with black aluminium LM6 body and frame, tempered flat glass, integral control gear and asymmetrical reflector suitable for 70W/150W HST/HIT or 70/150W HIT-DE lamp. Sealed to IP65.

As Thorn Areapak 1.
