Cesar's simple, cylindrical style, available in four sizes, offers a choice of adjustable light sources and superior highlighting

- Stainless steel screws promote additional resistance and easy maintenance
- IP65 protection
- Range of lamp types, lenses and wattages optimise light output and save energy
- Delivered with integral gear
- Safe and simple installation using a single tool
- Automatic connection reduces installation time and cost
- Double lamp versions available with independent electric circuits provide energy savings and help to control obtrusive light
- Adjustable lamp positioning (except for TC-TEL models) enhances versatility
- Semi-intensive reflectors combine excellent photometric performance with choice of beam angles, for creative effects. (Intensive reflector and ellipsoidal lens as custom)
- Colour effects can be created using colour filters or LED's (size 1 only)
- Frosted glass also available
