	HIE (ME)	E40	250W-400W
	HSE (SE)	E40	250W-400W
	HME (QE)	E40	250W-400W
AS/NZS 60598			Class I Electrical
		IP65 - (Gear only)	

A medium wattage suspended HID enclosed luminaire with prismatic light control

- Suitable for many installations with 4 - 8 metre mounting heights
- Designed for use with elliptical coated lamps and available with standby lamp options
- Optics and die cast gearbox has been certified to the requirements of IP65
- Suitable for many dusty and steamy areas in which vapours and contaminants may prevail
- Applications include industrial production and food processing, retail stores, gymnasiums, warehouses, and factory assembly lines
- Large refractor to scatter glare
- Light emitted over very wide areas
- Low-profile diffuser clips permit re-lamping from below
- Optical chamber enclosed by compressible neoprene extrusion to seal refractor rim band and reflector
- Lens retention lanyard
- Range of attachments including Wire guard and recessed ceiling trim

Materials/Finish

Housing: die-cast aluminium, painted white.
 Reflector: aluminium, finished in white powdercoat with highly reflective white interior.
 Visor: injection moulded, non yellowing acrylic.
 Rim band and clips: stainless steel.
 Filter: activated carbon.
 Lanyard: stainless steel.

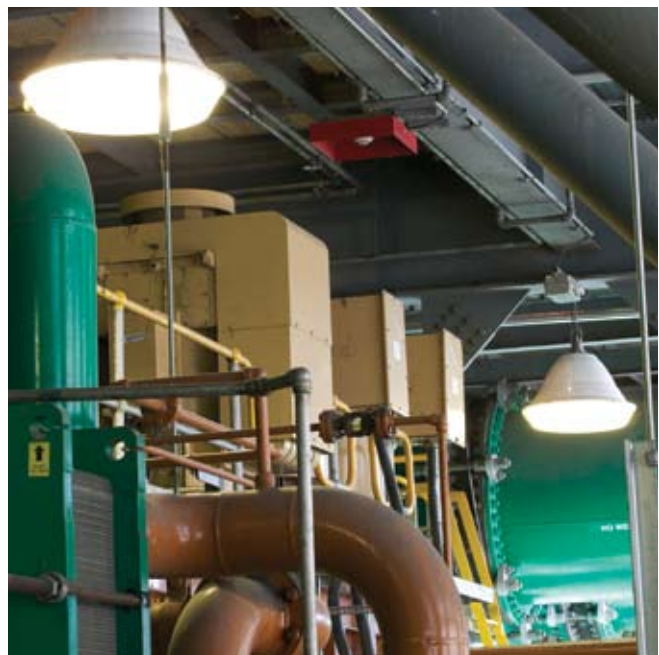

Installation/Mounting

Suitable for suspension mounting heights of 4 - 8 metres with suspension hook. Pre-wired 1.5m flex and 3 pin plug.

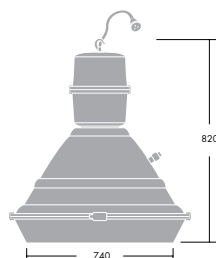

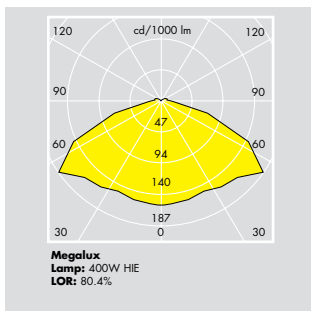

Specification

To specify state: High bay suspended HID enclosed luminaire with vertical 250/400W HME, HIE and HSE lamps, and acrylic refractor for prismatic light control. Sealed to IP65.

As Thorn MegaLux.

Callide, Gladstone, QLD
