

Titan

A product specifically designed for arduous conditions experienced in heavy industry

- Smooth, curved surface design, with flat back to minimise dirt and contaminant build up on fitting, and enable easy jet hose cleaning
- Designed for use in elevated temperatures up to 55°C
- Ease of maintenance with quick change control gear, and stainless steel fixings and thread inserts to minimise corrosion
- Timed ignitors for increased lamp life without flashing or EMC interference
- A range of attachments to meet the needs of varying applications including, glare hoods, wire guards and pole mounting brackets
- Various lamp options available including, HSE, HIE and HME

	HSE (SE)	E27	70-110W
	HME (QE)	E27	80-125W
	HIE (ME)	E27	100W
AS/NZS 60598			IP66

Wire guard (optional accessory)

Glare hood (optional accessory)

Post mounted version (optional accessory)

Townsville Phosphate, Townsville, QLD

Materials/Finish

Body: LM6 marine grade aluminium, polyester powder coat finish.

Lens: borosilicate glass.

Gear tray: zincseal steel, powder coated white.

External fixings: 316 stainless steel.

Installation/Mounting

Gear tray is easily removed for quick and simple installation.

All mounting holes are external to main seal preventing ingress of dirt or moisture. 3 x 25mm entries allowing for flexible mounting arrangements. External feet for unistrut mounting.

Specification

To specify state:

A robust IP66 bulkhead with marine grade aluminium body and Borosilicate glass lens for, 70/110W HSE, 80/125W HME, and 100W HIE lamps.

As Thorn Titan.
