

WeatherForce

T26 (FD)	G13	18-36W
T16 (FDH)	G5	14-49 W
AS/NZS 60598	Class I Electrical	
IP65		

An easy to use weatherproof fluorescent lamp luminaire with IP65 protection, specifically designed for general outdoor applications

- Injection moulded body and diffuser
- Accurate mouldings with a deep sealing channel to ensure IP65 resistance
- UV stabilised polycarbonate diffuser for maximum impact resistance
- Choice of switchstart, high frequency or digital dimming control gear
- Stainless steel toggles
- Various T8 and T5 lamp options
- Impact Resistant diffuser/canopy

Materials/Finish

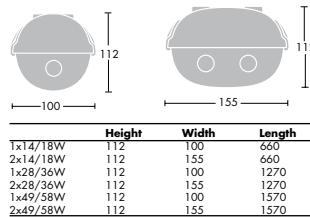

Body: canopy injection moulded polycarbonate in light grey.
Diffuser: injection moulded UV stabilised clear polycarbonate.
Gear tray: sheet steel, white powdercoat paint finish.
Toggles: stainless steel.

Installation/Mounting

Cable entry positions at each end of fitting. Screw fixing through identified locations in back of fitting. Toggles are easy and quick to close by hand. (Basic Tool required to open toggles). Suspension kits available to special order.

Specification

To specify state:
Weatherproof IP65 fluorescent fitting with injection moulded polycarbonate body and polycarbonate diffuser for T26 or T16 lamps with High Frequency/ Switchstart /Dimming gear.
As Thorn Weatherforce.
