UNIQUE COMBINATION OF COMFORT AND CONNECTIVITY

Our next generation of the Sustain family is an office luminaire featuring intelligent characteristics in key areas such as optic, control and flexibility.

IDEAL SOLUTION TO SUPPORT BUILDING STANDARD REQUIREMENTS

Wellbeing in office spaces is enhanced by holistic lighting ecosystems. Active Light is linked to daylight dynamics, actively supporting the natural bio rhythm and seamlessly ensuring maximum visual comfort for tasks. Such human centric lighting solutions bring people together and promote creativity.

MODULAR BODY

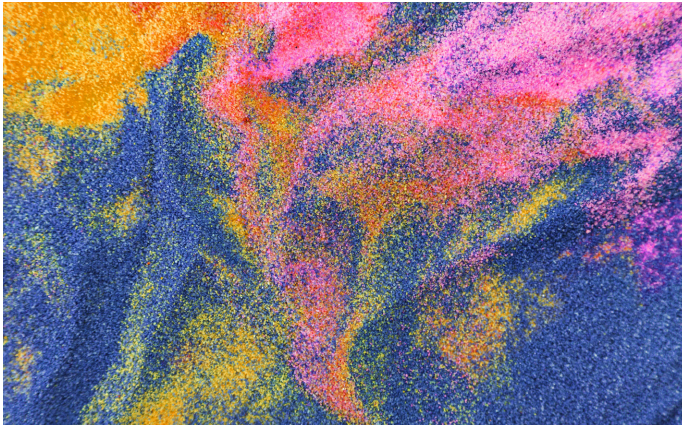

The flexibility of the new Sustain Pro allows for the client to be creative and unique.

5 YEAR
GUARANTEE

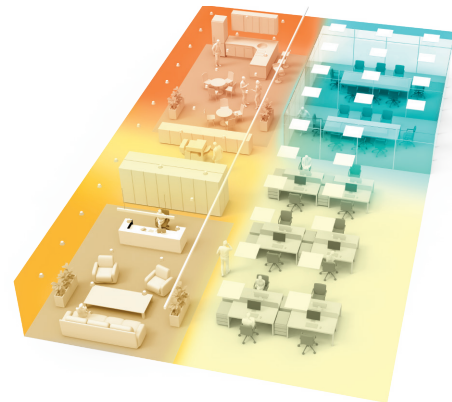

COLOUR RENDERING

Sustain Pro provide a very high colour identification with Colour Rendering Index (CRI) >90, this luminaires is also the ideal solution for Clinical Observation requirements.

VARIABLE COLOUR TEMPERATURE

Tune your light and shape your office or school towards a zone of relaxation, focus or communication with the new variable colour temperature feature (VCT). VCT enables varying the CCT from 2700K to 6500K.

AIR HANDLING (AH)

The air return feature is sleekly positioned into the angled reflector to minimise visibility from directly below.

DIMMING AND CONTROLS

With the use the latest drivers, the Sustain Pro enables various dimming type. These include Dali 2 (HFI) and Dali Type 8 for the Variable Colour Temperature (VCT) option. The Sustain Pro also has the option for BasicDim wireless (BC), this feature gives the user independent wireless control.

EMERGENCY LIGHTING (E2)

This one fitting for all applications even includes your emergency lighting. The 2hr backup mode gives you enough time to leave the premises safe and sound.

SUSTAIN PRO

A stylish ceiling recessed LED luminaire.

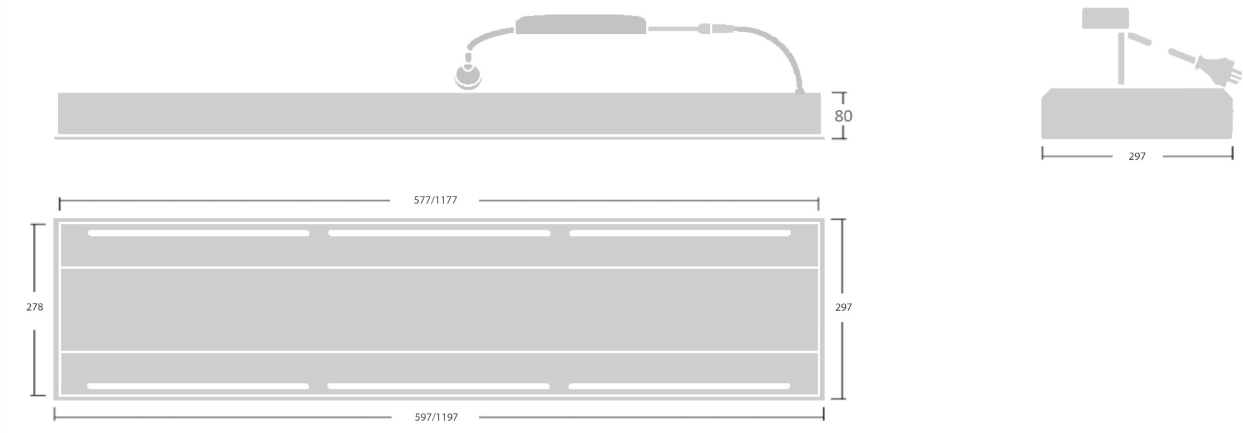

Our next generation of the Sustain family is an office luminaire features intelligent characteristics in key areas such as optic, control and flexibility.

- Optics: Innovative multiple layer microprismatic film optic offers excellent uniformity and glare control (UGR 19), the clever optics enhance illuminance on faces and walls to encourage a comfortable and communicative working environment.
- Controls: Our remote gear design allows you to create flexible control systems suited to your needs. Wireless solution controlled via App with Bluetooth® 4.x - basicDim Wireless. Also available are integrated PIR and microwave sensors.
- Flexibility: A new slim body design that allows greater variation to output, control integration, performance and overall aesthetics.
